

## **Avalon Announces Two New Membership Options**

Avalon Golf and Country Club is pleased to announce two new membership programs designed for adult children ages 22-29 and for grandchildren.

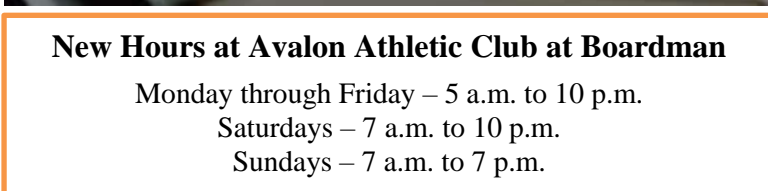

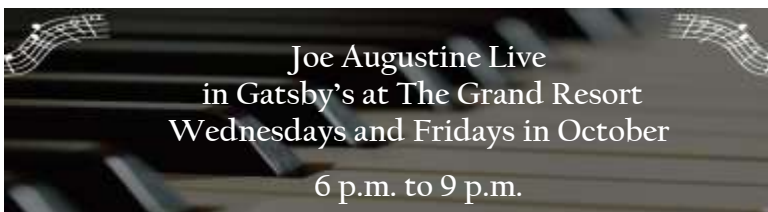

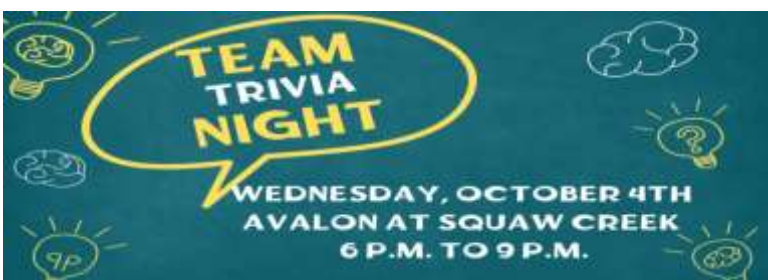

**The Adult Child Ages 22-29 Membership Program** allows young adults through age 29 who are not members but whose parents have a family membership plan to join that family plan at discounted rates.

Annual cost for the program is \$434 plus tax which is 50% off the Individual Avalon Membership rate. Savings are also available for adult children whose parents have a Golf Upgrade 1, 2, or 3 family membership plan and want to be included on one of those plans. Adult children may take advantage of this reduced membership rate until the primary membership renewal date following their 30<sup>th</sup> birthday or until the primary family membership is resigned. Spouses and/or children of the Adult Child Member are not eligible for this program.

**The Grandchild Membership Program** allows grandchildren of current Avalon members to enjoy an Avalon membership at special discounted rates.

The program is open to grandchildren of active Avalon members. Children whose mother or father are active Avalon members are not eligible. Annual cost to add a grandchild to an existing membership is \$250 plus tax per child. Savings are also available if the grandparent has a Golf Upgrade 1, 2, or 3 Plan and wants to add the grandchild to the same plan. Grandchildren are eligible for this membership program until their 16<sup>th</sup> birthday or until the primary grandparent's membership is resigned.

For full details on either new membership program call Membership Director John Mikulas at (330) 856-8830 or email [jmikulas@avalonlakes.com](mailto:jmikulas@avalonlakes.com). Information is also available on the "Join Avalon" link on the Avalon website at [www.avalongcc.com](http://www.avalongcc.com).

**What is Semaglutide?**

Semaglutide is a new exciting medicine that is helping people lose weight and reach their ideal size. It's an easy-to-use, once a week injection that works by regulating food intake by reducing feelings of hunger. Semaglutide also helps you feel more full and satisfied after a meal by delaying gastric emptying.

**Benefits of Semaglutide Injections**

- Significant weight loss - typically 2-8 pounds per week (Results may vary)
- On average, patients lose 15% of body mass
- Helps you to look and feel beautiful
- Curbs the appetite to decrease calorie intake
- Leaves you feeling more full for longer periods of time
- Regulates blood sugar
- Requires only one treatment per week

**YOUR CUSTOMIZED WEIGHT LOSS PROGRAM**

Our Medical Weight Loss team will develop an initial three or six-month weight loss program based on your physiology and goals. A prescription for semaglutide injections is included, and you have the option of receiving weekly injections in our Med Spa office (for an additional charge) or having our staff teach you how to administer it on your own at home. We will monitor your progress quarterly and make any necessary adjustments to ensure your progress follows your weight loss plan.
